

# APPLE BLOSSOM SUNDAY WILL BE HELD ON MAY 4TH

"Apple Blossom Sunday" will be observed in Adams County on May 4 it was announced today.

At that time, prominent fruit growers predict, the combined blooms of apples, cherries and peaches and dogwood will be almost at their peak, for the first time in four years in this area. This is due, they said, to the recent summer-like weather, thunderstorms and an unusually warm sun.

The buds have been "pushed" by the favorable conditions with the results that the blossoms should present a beautiful panorama of color in the 17,000 acre fruit belt of Adams County, covering a crescent-shaped area 15 miles wide and 4 miles deep extending from York Springs to Fairfield.

Expect 50,000

A crowd of more than 50,000 visitors are expected to visit the fruit belt on Apple Blossom Sunday. Several hundred inquiries from New York to Pittsburgh have been received here and every indication points to a capacity visitation.

The Adams County Poultrymen's Federation will again serve a barbecued-chicken dinner on Apple Blossom Sunday at the South Mountain Fairgrounds, near Arendtsville from 11 a.m. until 5 p.m. A feature of the dinner will be the customary apple smorgasbord which has attracted wide patronage.

The recently selected Apple Blossom Queen, Miss Marian Griest, will be crowned at 2:30 o'clock at Apple Blossom headquarters, Miss Joan Heller, last year's queen, will preside until the new queen is crowned.

More than 200 fruit growers have volunteered their services as guides on Apple Blossom Sunday. Six hospitality booths will be erected along the 100 mile blossom trail. In addition, blossom trail signs will be erected along the entire route and especially at crossroads to guide visitors.

Roy Heckenluber, Arendtsville, is chairman of the dinner committee.

# WILL ORGANIZE NEW COUNCIL OF CHURCHES HERE

With nearly a fourth of the 82 Protestant congregations in Adams County already enrolled as members of the proposed Adams County Council of Churches, the Council's Steering committee Sunday afternoon set Monday, June 30, for formal organization of the council.

The organization meeting when officers will be elected will be held the evening of June 30 at the Gettysburg Church of the Brethren, Biglerville Rd.

The meeting will be arranged by the Steering committee headed by Luther M. Lady of Biglerville in consultation with representatives of the Pennsylvania Council of Churches at Harrisburg.

# SMITH AGENCY IS ROBBED OF \$1,300 IN CASH

Burglars pounded the door off a 600 pound safe at the Leroy E. Smith News Agency, North Stratton St., and stole approximately \$1,300 in cash and \$2,650 in checks sometime between 9:15 o'clock Saturday evening and 11 o'clock Sunday morning, borough police reported today.

The burglars entered the news agency by breaking open a rear door to the boiler room, and then went to Smith's office. Smith said he was on his way to Washington D. C. Sunday morning and had stopped at the office at 11 o'clock "to pick up a folder" when he discovered his desk had been disturbed. Smith found that the safe had been put on rollers, used to move merchandise in the warehouse, and rolled from his office to about the middle of the 140 foot long storage area along the north wall. There the safe's door was battered off.

# Damage Records

The burglars ransacked the safe, scattering office records and files and personal papers of the Smith family all over the area. They also trampled on the papers.

Whether it was intentional or an oversight the burglars left or overlooked a number of government war bonds. Birth certificates of the Smith family, Mr. Smith's army discharge papers and other personal items were scattered over the office floor.

# Used Agency Tools

Smith reported that the thieves used the agency's tools which included a crow bar, hatchet and hammer, to destroy the safe. Some personal items, express checks and money orders also were stolen. Smith said he doesn't think these would be of any value to the burglars. "No merchandise was taken but some change in his drawer was stolen," he said.

The Smith home on W. Broadway had been robbed of over \$150 in cash the latter part of last October when the family was away for the day.

Smith said he did not realize the safe was missing when he first arrived at the office Sunday morning, until after he saw that his desk had been rifled through.

Borough police are conducting an investigation, one of a series in this area in recent weeks.

## Tells Police He Wanted To Kill Nuns And Priests

TRENTON, N.J. (P) — "I wanted to kill some nuns and priests."

That, police said, was the explanation offered by a 24-year-old father of two who burst into a convent Saturday night and wounded three nuns with a shotgun.

They said Louis Felipe Marrero signed a statement in which he admitted shooting the nuns and turning the area around St. Joachim's convent and school into a battleground as he fought off police and National Guardsmen for more than an hour.

The youth, who spoke of seeing visions of the Virgin Mary, finally slipped from the building and walked to the Delaware River 10 blocks away.

**Surrenders To Guard**

He got into a rowboat and crossed over to Pennsylvania, where he surrendered to a guard at the Fairless works of the U.S. Steel Corp.

Mercer County Prosecutor Stanley E. Rutkowski said Marrero would not fight extradition. He said the youth would be brought here and charged with atrocious assault with intent to kill.

The prosecutor quoted Marrero as saying he had sent a series of suggestions to such prominent Catholics as Bishop Fulton J. Sheen and then became resentful when his suggestions were ignored.

**Urged Special Medal**

Among other things, Marrero suggested a religious medal for spacemen in the U.S. armed forces and also sent Bishop Sheen his own version of the Bible.

Two nuns wounded seriously in the shooting spree were reported out of danger. They are Sister Lorenzina Sassani, 50, who was shot in the chest, and Sister Madeline Fussile, 23, Bayonne, N.J., who suffered a shotgun blast in the thigh.

The third nun, Sister Angela Bulla, 24, Torrington, Conn., and Asbury Park, N.J., was wounded in the arm and was listed in good condition.

A passer-by was hit in the mouth by pellets fired by Marrero from a convent window.

The prosecutor said Marrero has no police record or record of mental illness.

**"Visions And Signs"**

The handsome, wavy-haired youth sat in the Falls Township, Pa., police station and spoke calmly of his "visions."

"I have been having visions and signs from the Virgin Mary for about two years," he said. "I've never spoken to her. I've never seen her. Just the signs."

Marrero, an \$80-a-week press operator who lives only two blocks from St. Joachim's, was married in the church and was known in the neighborhood as a regular churchgoer. He has two children, aged 1 and 3.

## NEW DEFENSE ORGANIZATION UP TO CONGRESS

By EDMOND LE BRETON

WASHINGTON (P)—Rep. Kilday (D-Tex.) said today the issue of giving the secretary of defense a bigger say in the use of military funds is squarely before Congress now.

Kilday, a senior member of the House Armed Services Committee, said it is a dangerous mistake to think that President Eisenhower has postponed for a year this aspect of his defense reorganization plan—perhaps the most controversial part of it.

When Eisenhower sent Congress the draft legislation last Wednesday, he said the secretary of defense needs "greater flexibility in money matters." He added that no legislation was required, but that he had directed that the budget for the fiscal year beginning July 1, 1959, should be prepared on a new basis.

This was generally interpreted as a move to delay the battle in Congress over the major fiscal aspect of defense reorganization until this budget comes up for consideration after next January.

But Kilday said there is one section in the Eisenhower draft bill which, if adopted by Congress in the meanwhile, could greatly strengthen the administration's position on military appropriations.

This section would delete the word "separately" from the following passage in the existing law: "The Departments of the Army, Navy and Air Force shall be separately administered, by their respective secretaries under the direction, authority and control of the secretary of defense."

Kilday said, "That issue is before Congress now and that is the key issue."

Police said the three Navy men were pushing the stalled auto in the south bound lane near Delmar when Tall was struck by a tractor-trailer operated by Allen L. Stevens of Vineland, N.J.

Tall's brother-in-law, Charles R. Jackson, 18, of 316 E. 7th St., Chester, and Ernest Lewis, 18, of 318 W. 26th St., New York City, were not hurt. They are stationed in the Norfolk area, police said.

## STATE PARK DAM BURSTS

BERWICK, Pa. (P) — Ricketts Glenn State Park is closed pending an engineers' investigation of the Lake Leigh dam which burst yesterday sending tons of water cascading toward 2,000 picnickers and hikers.

Park officials said a disaster was averted because of a major section of the dam, perched on a mountain plateau, remained intact.

State police ordered the park cleared as water poured 1,000 feet down North Mountain into Kitchen Creek. They feared flash floods.

Residents in low lying areas below the dam were warned of possible flood conditions.

Park officials said a 36-inch section near the bottom of the dam gave way.

The dam holds back about 50 acres of water in Lake Leigh which feeds Kitchen, Huntingdon and Fishing creeks. The lake was half filled when the dam broke.

Officials said the break was caused by the heavy volume of melting snow in the upper reaches of North Mountain. The park is about 35 miles west of Wilkes-Barre.

## PARAMOUR IS READY TO TALK

PHILADELPHIA (P) — Divorcee Marguerite Barnes says she will talk to Florida to question her in connection with the alleged embezzlement of \$200,000 in Collingdale school funds by suspended Supt. Faber E. Stengle.

The Philadelphia Bulletin, in a dispatch from Miami, said over the weekend that Mrs. Barnes denied any knowledge of the alleged embezzlements "or I would have dropped him like a hot potato."

Investigators have said that Stengle, 67, married, lavished gifts and money on Mrs. Barnes while keeping company with her.

**Got Less Than \$2,500**

Mrs. Barnes, however, said she received less than \$2,500 of the \$25,000 some investigators said she received.

The attractive redhead, some 30 years younger than Stengle, also denied they had a romance. She said, "He kissed me once, if you could call it that. It was last Christmas. He reached over and gave me a peck on the forehead."

Mrs. Barnes said Stengle helped her set up an apartment in West Philadelphia. With the detection of the embezzlement she moved to Miami where she now reportedly has a job with a take-home pay of about \$47 weekly.

The Gettysburg Times

### ONE HUNDRED YEARS AGO

Another State: On Wednesday last, the bill for the admission of Minnesota into the Union passed the Senate of the U. States by a vote of 48 to 3.

### Free School Exhibition And The

New School House: The Free School Exhibition on Tuesday evening last, in the new school house, was largely attended and everything passed off in the most happy manner. A large number of persons were present to witness the performances. The children who took part in the exhibition acquitted themselves well — reflecting credit upon the teachers under whose efficient and judicious training they have been. The exercises were enlivened by the presence of the Blues' Band, who performed some of their best pieces, which alone was worth the price of admittance. A handsome sum was realized which will be appropriated to purchasing maps and necessary apparatus for the new school building which is now almost completed. It is a large and commodious building fitted out with every convenience that will add to the health and comfort of the schools. The schools will be moved into it the next session.

At a meeting of the Board of Trustees of Pennsylvania College on Wednesday last, the Hon. Moses McClean was elected President of the Board in the room of J. B. McPherson, Esq., dec'd., and Gen. Simon Cameron a trustee of the college in the room of said deceased. Resolutions were unanimously adopted by the Board, expressing their regret at the loss of so valuable a member as Mr. McPherson.

Installation: By appointment of the Presbytery of Carlisle, which met at Greencastle a few days since, Rev. J. R. Werner will be installed pastor of the United charge of the Hunterstown and Marsh Creek Congregations on Friday next in the Church at Hunterstown.

Mr. Turner, the contractor for the new Court House, has been busily engaged during the past week in pulling down the buildings at the site.

SEVENTY FIVE YEARS AGO  
New Oxford Items: Baseball is being agitated in this place by our young men.

The farmers have commenced their spring work in good earnest. This makes our town rather dull—at least as long as "the plowman homewards plods his weary way." The present year, it appears, is the one looked to as that which will witness the return of those annoying insects, the locusts. It is stated that some were dug out of the ground and can be found in soil of woodland more numerous.

A party of Gypsies, it is said, are encamped for a week or more in the woods near Conewago Chapel. These singular people keep up their nomadic habits, irrespective of cold or heat. A few wagons in a dilapidated state passed through this town a few weeks ago. The outfit appeared to be defective.

The largest lot of buggies ever offered for sale in Adams county were offered at New Oxford on Saturday last. Out of sixteen about half were sold.

The New Railroad O. K.! Work Begun — To Be Finished By Sept.: We have the gratification of announcing to our readers that the new Railroad from Gettysburg to Hunter's Run is an assured success. The contract for the grading of the road has been given to Messrs. Keller & Bush of Lancaster, who are required to complete it by the middle of September. They begin work today or tomorrow and will at once put on a large force of hands, commencing on the mountain division.

William A. Butt, while at work on a clearing near the Herter Mill road, two miles west of Gettysburg, came across a den of snakes and killed 39 including 13 blacksnakes from four to five feet, 10 copperheads averaging three

## Today's Talk

DO IT!  
There is one thing we should forever pass up, and leave alone, and that is procrastination. It is very well to think out an important decision, but when once made — act on it! It is the fault of most of us, at times, to put a thing off and not act while the idea is warm and while we can put our heart into the thing. When anything comes up that ought to be done, immediately, it is the part of wisdom to obey that hunch and do it.

G. Keith Funston, president of the New York Stock Exchange, in a recently published article, tells of the advice his mother once gave him, and which he wrote was the best ever given him. She said: "Son, when you know you should do something, do it!" It would be well for us all if we followed such wise advice. Emerson tells of neglecting to take action on an idea, and then seeing another run away with it! In our offices we often have to pay heavily for not doing a job at once. Someone else is waiting the idea that we may carelessly toss aside. When we get the urge to act on a proposition, then is the time to act. Some inward Somebody should whisper to us to — do it! By making this sort of action habitual, we can put our selves in a state of readiness that will inspire us as well as many others.

There is a saying that "what-ever thy hand findeth to do — do it." We lose track of an inward urge to act if we do not act upon it at once. Freshness to a new idea wears away quicker than we realize. A good idea should never be neglected. Give immediate life to it!

Tomorrow Mr. Adams will talk on the subject: "Surprises" Protected, 1958, by The George Matthews Adams Service

## Just Folks

NOW  
Now's the time a feller needs you,  
Now's the time he wants your smile;  
Now's the time he wants your handshake,  
Not in some far after-while;  
Not when you are feeling better,  
When the laurels on your brow,  
Not when you're not quite so busy,  
But right now.

Here he is in need of boosting,  
Hungry for a cheerful word,  
For a bit of prayer and comfort  
That for years he hasn't heard.  
He may not be here tomorrow,  
Siftly chances slip away;  
There's no better time for helping  
Than today.

Pat the back that is before you,  
Speak whatever praise you can.  
Don't withhold a deed or message  
That may cheer your fellowman.  
If you have a word of comfort,  
Speak it ere it be forgot;  
If you'd help a brother, do it  
On the spot.

It has been reported that a burglar attempted to enter the house of Jonathan B. Myers in Latimore township one night last week. The family were awakened by the noise and Mr. Myers fired upon the intruder which caused him to retreat rapidly.

Improvements: With the advance of spring we notice the usual signs of improvement about the town, painting and fixing up residences, &c. Col. McClellan has his pool room building well under way. It is to be two stories, the upper story for sleeping apartments. Mrs. John E. Pitzer is putting up a new stable on the property recently purchased from Dr. Wolf on Chambersburg street. Mrs. J. B. Warner has begun tearing down the building at the corner of Baltimore and Middle streets preparatory to erection of a large brick building for store, offices and dwelling. A. K. Smith is building a two story shop and ware-room in his new location on York street.

Messrs. Frederick Pfeffer and Samuel Dotterer are about to open a brick yard on the Emmitsburg road, just beyond the borough line.

Work has been resumed on the new reservoir. Mr. Harris expects to finish it this week. It has a capacity of over 500,000 gallons. There is now a prospect of a full supply of water for the town — a long-felt want.

The Gettysburg Gas company are considering the propriety of introducing some improvements for a more economical manufacture of gas and expect to supply the town with better and cheaper gas.

## FERRER WILL SCREEN 'GREEN MANSIONS' SOON

By BOB THOMAS  
HOLLYWOOD (AP)—"Green Mansions" will finally be coming to the screen, thanks in large part to the persistence of a Ferrer named Mel.

This Ferrer acts and directs, as does Jose. But Mel will be directing "Green Mansions" only. The stars will be Mrs. Ferrer, who is Audrey Hepburn; Anthony Perkins and Lee Cobb.

The Hollywood story of the William Henry Hudson book goes back almost 25 years. Mel told me. It was originally bought when David O. Selznick was the head of RKO production. On Selznick's staff was a young producer named Pandro Berman.

**Afraid Of Fantasy**  
When Berman switched to MGM he convinced the studio to buy "Green Mansions" for him. The script was in the works several times, but never reached the screen. After Elizabeth Taylor made a hit in "National Velvet," the property was announced for her. Years later, Pier Angeli was supposed to play it.

"But they never could get a go-ahead on the project," Mel explained. "The thing that scared the studio was the fantasy aspect of the story. Fantasies have seldom been successful on the screen."

A year ago, Mel went to Mexico for "The Sun Also Rises." He took along a pack of books he wanted to reread, including "Green Mansions." He fell in love with the story of the nature girl in the South American wilds.

**Audrey Loves It**  
He started work on a screen treatment of the story. One day Audrey asked him what he was working on. He told her about the book.

"Audrey had never heard of it," Mel said. "She had grown up in Holland during the war and had little to read. She is sometimes sensitive about being 'uneducated.'"

Audrey also fell in love with the tale and wanted to do it. Mel wanted to avoid the appearance of a "package deal." So when he took his screen treatment to MGM he told them, "Audrey wants to do the picture whether I direct or not."

## TAX DECISION MAY BE DELAYED UNTIL JUNE, JULY

By B. L. LIVINGSTONE  
WASHINGTON (AP)—Congress may delay until June or even July any decision on reducing taxes to fight the recession.

This view was put forward today by influential members of the Democratic-controlled House, which originates tax legislation, in the midst of conflicting comments elsewhere that (A) the slump is leveling off or (B) that quick action by Congress is needed on many fronts to boost the economy.

New support for a tax cut came in an economic study report by the Rockefeller Brothers Fund recommending a series of public and private steps but calling a tax reduction the quickest way to get results.

**Favors Early Cut**  
The report itself made no specific recommendations as to timing or size but Nelson A. Rockefeller, fund president, said he personally favors a cut within a month.

The attitude of key members of Congress on taxes, however, appears to have undergone some change in recent weeks. Earlier, the belief was prevalent that the decision would come in April or May — certainly not later than June 30, because many wartime excise tax rates are due to drop then unless extended.

But legislators considering the problem say these excises could be extended at present levels and changed later if excise cuts are decided upon.

**Still In Picture**  
The possibility of a tax cut was still very much in the picture. Even if the economic slump proves to have slowed to a stop, some key members say a tax reduction still could be voted later to speed up recovery and get the economy off dead center earlier than if nature was allowed to take its course.

The Rockefeller report left the amount up to the administration and Congress "in the light of the best information available when the tax cut is made."

The report listed possible "immediate antirecession measures" in six areas:

1. Private business, through aggressiveness and initiative in selling and developing new products.
2. Tax reduction: "Properly designed, it can have an immediate impact on both consumption and investment."
3. Public works — but "only useful projects" which can be quickly started and completed.
4. Easier monetary policy by the Federal Reserve system to make more money and credit available.
5. Added unemployment compensation to supplement state programs.
6. Top-level guidance: "There is need for an informal advisory committee to meet at the call of the President and under his direct leadership . . . to consider and advise on stabilization policy, either antirecession or anti-inflationary as appropriate."

ST. LOUIS (AP)—"It looks silly. It sounds silly. It is silly." That was how Joseph Wood, 28, an unemployed butcher from O'Fallon, Mo., explained his actions yesterday after he robbed a gas station attendant of \$19, then changed his mind and had the attendant call police.

Wood told police, "I'd been doing a lot of beer drinking."

## James MARLOW Reports

The Associated Press

WASHINGTON (AP)—Fifty years ago Ezra Pound was fired from his teaching job at Wabash College for being too much the bohemian. It was a time of sterility, soothing syrup and bleak puritanism in American literature.

He protested and wanted to correct it. To do it, he left the America he grew up in and went to Europe. He spent the rest of his life there calling the mass of Americans dolts.

Last week in federal court he heard a judge dismiss a treason charge against him because doctors said he was hopelessly insane — although not the kind to hurt anyone.

**Dilapidated Now**  
Photographers wanted a picture. He posed with his collar open, his shirttails sticking out, a beat-up black felt hat on his head and a yellow scarf around his neck. He was still the bohemian, but dilapidated now, and terribly tired-looking at 72.

What had happened in those 50 years? He had become a famous poet; a tremendous good and creative force in literature; a benefactor to many artists; and, the government charged, a traitor because he broadcast Fascist propaganda from Italy during World War II.

**Appraisals Differ**  
English literature is the greater for his having been alive. The debt to him is not so much for his own poetry—moments of brilliance amid acres of obscurity and incoherence—as for his creative influence.

He meant his great work to be his cantos. He worked on them for decades. An epic on the human comedy, he called them. Critic Edmund Wilson dismissed them as a "monument . . . to a kind of poetic bankruptcy."

But Carl Sandburg acknowledged years ago that Pound has "done the most of living men to incite new impulses in poetry."

HARRISBURG (AP)—Hempt Brothers, Inc., Camp Hill, have submitted an unofficial low bid of \$424,514 for construction of the proposed Conewago Dam in York County.

Ground breaking ceremonies for the dam will be held May 10. The earth will fill dam across Beaver Creek will produce a 350-acre lake. When completed the dam will be 50 feet high, 620 feet long and 285 feet wide. It will be located in Warrington Twp.

## Truman Admits He Was Wrong In Denying 1950 Interview

CHICAGO (AP)—The Chicago American says former President Truman admits he was wrong in telling the House Banking Committee last week that an exclusive interview he gave in 1950 "did not happen."

Truman's admission came to light Friday in an interview by an American reporter who telephoned the former President at his Independence, Mo., home.

The American quoted Truman as saying he had "written to Rep. Spence (D-Ky.), chairman of the committee, . . . and asked the committee to set the record straight" on the erroneous testimony. Truman was further quoted:

"I had forgotten about that interview. I regret very much what I said before the committee. But you know when you appear before committees, and they throw questions at you, you can't always think as fast, and your memory doesn't always work so good."

In Monday's hearing in Washington, Rep. Talle (R-Iowa) made reference to an exclusive interview Truman gave a New York Times reporter in 1950 regarding unemployment. The Times article related that the then Chief Executive said "it is a good thing that job seeking should go on at all times" because it is "healthy for the economic body."

Truman told Talle: "That exclusive interview did not happen. That came out of the air."

**Read, Approved Story**  
Next day Arthur Krock of the Times appeared with a column giving details of the time, place and circumstances of his interview with Truman. He said further Truman had read and approved his story before it was published Feb. 15, 1950.

In response to a question about the matter, the American quoted Truman as saying:

"As you can see by what happened, my memory apparently does not work fast. I regret this very much."

The American reported Truman said he had written Krock a letter of apology as well as Spence.

Truman said Dean Acheson, his secretary of state, had refreshed his memory when he talked to Acheson after the former secretary made a speech in Kansas City on Tuesday, the American reported.

When asked how "everything is" with him, the American said, Truman replied:

"I'm feeling all right, but I guess my memory is not so good any more. And I can't get around as fast as I used to."

Primitive cave women in the United States tidied up their floors by spreading fresh soil over the debris rather than using the equivalent of a broom. Archaeologists today are happy about this for it preserved the tools and other articles used in those ancient days as carefully as if they had been left in a modern filing cabinet.

## MUSIAL LEADS CARDS TO FIRST WIN OVER CUBS

By JOE RICHLER  
The Associated Press

The National League's best and worst streaks ended yesterday. The man responsible? Stan Musial. Who else?

Having seen his St. Louis mates drop their first four games this season—all to the Chicago Cubs—Stan the Man finally decided to take matters into his own hands. He smashed two home runs and drove in four runs to lead the Cardinals to a 9-4 victory over previously unbeaten Chicago.

The Cubs' league lead was cut to half a game by the San Francisco Giants, who walloped Los Angeles 12-2.

Phil's Beat Braves  
The Phillies, behind Robin Roberts' five-hit pitching, defeated the Milwaukee Braves 3-2 and Pittsburgh nipped Cincinnati 4-3 on R. C. Stevens' ninth-inning home run.

Musial hit his first homer—third of the season—in the first inning with a man on base. That gave the Cardinals a 2-0 lead. With the Cards leading 4-3, he smashed a 3-0 pitch with one on in the fifth to launch a four-run rally that led to his team's first victory.

A crowd of 47,234 sweltered in the sun-baked Los Angeles Coliseum as the Giants blasted three pitches for 15 hits including three home runs over the convenient 42-foot left field wall. Danny O'Connell hit two and Daryl Spencer hit one. Carl Furillo walloped one for Los Angeles to raise the total of homers to 12 in the three-game series. The crowd brought the three-day attendance total to 167,209.

Good Day For Roberts  
Ramon Montant, who was beaten by Los Angeles at San Francisco, went all the way and hurled an eight-hitter. Don Drysdale suffered his second loss to the Giants.

Roberts, who was knocked out in his first start after pitching five scoreless innings, went all the way this time for his first victory. He helped his cause with three of Philadelphia's seven hits and scored the winning run in the seventh. Both Milwaukee runs came on homers. They were hit by Henry Aaron and Harry Hanebrink in the seventh.

Bob Friend became the first Pittsburgh pitcher to go the distance in the Pirates' victory over Cincinnati. Rookie first baseman Stevens, who entered the game in the ninth as a defensive measure, came up with two out in the ninth and hit a Willard Schmidt serve out of the park to end the game.

HERSHEY WINS HOCKEY TITLE  
SPRINGFIELD, Mass. (AP)—Willie Marshall of the Hershey Bears scored the winning goal last night as the Bears defeated the Springfield Indians to capture the American Hockey League Calder Cup Championship.

Hershey won 2-1 in the sixth game of the best of seven series. Bobby Perreault, Bears' goalie, had 25 saves while Claude Evans of the Indians had 35.

Springfield's lone tally came in the first period on a goal by defenseman Bob Armstrong with Cal Gardner getting an assist.

Dunc Fisher tied it up, 1-1, in the second period when he came out of a scramble in front of the Bears' net to score.

Marshall's clincher came at 16:55 of the third period with assists by Fisher and O'Brien.

BOSTON (AP)—The mighty Montreal Canadiens returned home with hockey's coveted Stanley Cup for the third straight year today after a pressure-filled championship series with Boston's battling Bruins.

"I guess we'll be in the same trouble next year—everyone will pick us to win by a lot of games," said Coach Toe Blake before leaving for Montreal.

The Canadiens triggered a pair of goals in the first two minutes and held on for a 5-3 triumph and the championship last night in the sixth game of the best of seven competition.

Start Workshops On Problems Of Aging  
HARRISBURG, (AP)—The first of a series of conference workshops on problem of the aging will be held tomorrow to consider means to set up employment of older persons.

Gov. Leader reported that more than 36,000 older persons — 45 years of age or more — were placed in jobs in the commonwealth last year.

However, he noted that persons of that age or more would total nearly 1,900,000 in 1980 — some 36 per cent of the estimated work force in the state then of 5½ million persons.

In 1950, he noted, the work force included 34.8 per cent of workers that age or more.

## MOUNTAINEERS LOSE PAIR TO LOYOLA OUTFIT

Mt. St. Mary's (1-2) dropped both ends of a Mason-Dixon Conference baseball doubleheader to Loyola at Baltimore Saturday, 10-9 and 4-1.

Loyola scored two runs in the last of the final inning to win the opening game, a walk to Don Deinhelm with the bases loaded forcing over the winning tally with one out.

Four runs in the first inning stood up for the Greyhounds in the second game. The tallies resulted on two walks, a bunt single by Dave Carney, a balk and two Mount errors.

Bob Segrell rapped three hits for the Mount in the first game and John Walsh a pair on the second game.

Coach Jim Phelan's outfit plays at Catholic University Tuesday and hosts Baltimore University Friday in its first home game.

Pinhurst, N.C. (AP)—Bill Campbell, Huntington, W.Va., insurance man who will be 35 years old in two weeks, seeks his fourth North and South Amateur golf tournament championship in nine years. Qualifying play was on tap today.

The 6-4, 200-pound Campbell, a member of last year's U.S. Walker Cup team, seeks to become the No. 2 man in this 58-year-old event's roll of winners.

Only George T. Dunlap Jr. has won more often. From 1931 through 1942 he took seven North and South titles. Included is a string of four starting in 1933.

Shares Honors  
Campbell shares runnerup honors at three with George Voight, Walter Travis and Frank Stranahan, now a professional.

Campbell first won in 1950, repeated in 1953 and again in 1957. Last spring he beat Hillman Robbins, the defending champion from Memphis, Tenn., in the finals.

Robbins, a lieutenant stationed at Shaw Air Force Base, S. C., went on last summer to win the National Amateur crown.

Formidable Opposition  
He was in the field of 125 today seeking a place in the 64-player first round of match play tomorrow.

Campbell and Robbins had three Walker Cup teammates of last year heading the formidable opposition. They were irrepressible Billy Joe Patton of Morgantown, W.Va., Bill Hyndman of Abington, Pa., and Arnold Blum of Macon, Ga.

Playing from the back tees, the course measures close to 7,000 yards with par of 72.

## PROD INDUSTRY TO SPEND MORE FOR RESEARCH

By SAM DAWSON

NEW YORK (AP)—Industry is being prodded today — even in the face of its cost cutting drive — to put more money into basic research for its own and the nation's needs.

It is already pouring about four billion dollars a year into industrial research, but the lion's share of that is for applied research. That is, its scientists seek to develop new products or new processes that eventually will pour billions into the till through increased sales.

The lag here in basic research came to the fore dramatically when the Soviets launched their Sputniks. President Eisenhower has called for more scientific pioneering, which means more basic research.

### Lack Basic Research

At a meeting sponsored by the American Assn. for the Advancement of Science speakers said total research spending by government, universities and industry was growing but basic research was taking an increasingly smaller share.

But industrial leaders say that industry already is stepping up its long-term research projects.

E. V. Murphree, president of Esso Research and Engineering Co., says that about 20 per cent of his company's research effort could be classified as basic research. He thinks that about 800 million dollars of basic research a year is being carried out in the nation's industrial laboratories.

### Lots Of Subsidizing

And corporations are subsidizing millions of dollars worth of university and institutional research. One example: the Stanford Research Institute at Menlo Park, Calif., reports that in 1957 it undertook contract research amounting to nearly 15 million dollars, with half for the government and half for business, industry, foundations and individuals.

The basic research that corporations pay for naturally tends to be in the fields in which the companies operate. Scientists employed in the laboratories of stockholder owned corporations try hard to get some sort of foreseeable connection between the research projects and the goal of any productive enterprise: profit making.

The connection may be a long time coming. An example: Du Pont reports it took 12 years after a research project was started for a polyester film venture to show a manufacturing profit, and 11 years for a basic study of plant hormones to produce a lead from which applied research then developed a commercial herbicide that first made profits still nine more years later.

### Cite Some Examples

Here are just a few of the many examples of what corporations are doing and planning in basic research:

Schering will soon establish research facilities where a group of scientists and laboratory workers, insulated from the rest of the drug company, will spend full time on basic medical and chemical research.

The Salt Institute, a trade group is trying to develop techniques for using salt as a vehicle to carry hormones, vitamins and other cattle needs to beef cattle.

### Long List Possible

## ARMY COURT FINES SERGEANT

SEOUL, Korea (AP)—M. Sgt. Robert E. Weidensaul, Pottstown, Pa., was fined \$120 by an Army court martial Saturday for roughing up a teen aged Korean thief and nailing him into a narrow, three-foot-long box.

Weidensaul was the third American ordered punished for mistreating Kim Chong Il, 14. The Korean lad was caught stealing at an aircraft maintenance center in Korea.

Sgt. Weidensaul was convicted of cropping and tarring the boy's hair, stuffing him into a crate and nailing it shut on Feb. 25.

Weidensaul's commander, Maj. Thomas James of Plymouth, Pa., then flew the box to another base 25 miles away. The boy is now in a U.S.-supported orphanage.

James earlier was relieved of his command and fined \$200. The other man accused in the case, Capt. Marvin E. Kemp of Killmichael, Miss., was fined \$1,200 and relieved of command for six months for knocking the boy about and nailing him with a knife.

## STATE GOING AFTER BIGGER EGG MARKETS

By RICHARD L. GRAVES

HARRISBURG (AP)—Pennsylvania agriculture is making a concerted effort to keep and expand its egg markets through a joint program by government, education and the poultry industry.

The latest development is inauguration of a state seal of approval on eggs certified by the agriculture department. The first eggs carrying the state seal on their carton go on the market this week.

E. J. Lawless Jr., head of the state division of eggs and poultry, said 10 plants have already joined the state certification program. He indicated many more will be included in the program as state standards are met.

"We won't qualify them unless

they know what they are doing in providing quality eggs for the consumers," Lawless declared. "We're going to be very strict in our certification program."

Under the system plants have a state-licensed inspector full time in each plant.

"In addition, the plants are subject to frequent unannounced inspection by state inspectors," he added.

New White Keystone

The new seal is a white keystone with a blue border. The words "Pennsylvania certified graded under state supervision" is printed in red on each seal. In addition, cartons will also have to be dated, coded with the firm's name and plant number.

The new seal follows establishment of state standards for marketing eggs, which went into effect Jan. 16. The prime objective of the new standards is to protect the consumer by guaranteeing quality.

However, the standards have the additional effect of boosting the quality of egg production—the best means of meeting growing out-of-state competition.

Most Are Complying

Under the standards each carton must "be marked in a plain and conspicuous manner" with the grade and weight of the eggs, as well as the name and address of the producer, packer or distributor.

Dr. William L. Henning, secretary of agriculture, reported the state's poultrymen are complying with the new regulations to a large degree.

## "RED MILL" ON TV WAS LOADED WITH TALENT

By CHARLES MERCER

NEW YORK (AP)—"The Red Mill," as seen on Show of the Month (CBS-TV), was an interesting demonstration of how to please some of the people some of the time when you cannot possibly entertain all of them for 90 minutes.

Victor Herbert's 1908 musical has lushly romantic music, an absurd plot and wooden characters. If played straight today as a period piece, it would not hold many viewers except the Victor Herbert diehards. If satirized, it probably would have little widespread appeal on television.

To Conduct Schools

Lawless said the state plans a follow-up program by conducting egg grading schools to be attended by the graders of all marketing agencies and dealers. The first school will probably be held at the poultry research center near Lancaster. No date has been set.

"Quality is our best means of

meeting out-of-state competition," said Lawless. "We know for a fact that other states have their eye on the huge eastern markets now served by Pennsylvania production. Already they have taken strong steps to move in."

New Jersey established a state seal and also worked out an agreement with producers for an assessment against feed purchases which goes into a state promotion fund. The fund now totals some \$83,000, one source revealed.

Seldom has so much talent been assembled to lift a 50-year-old Victor Herbert musical over the psychological hurdles of current entertainment tastes. The result on Saturday evening was rather like a good vaudeville show: moments in the modernized musical that appealed to you probably bored your neighbor — and vice versa.

"The Red Mill" had something for nearly everybody. That it failed to absorb nearly everybody for most of its length was not the fault of the creative talent which applied itself to the task. That blame lies with whoever thought it a good idea to present "The Red Mill" on television.

Victor Herbert's 1908 musical has lushly romantic music, an absurd plot and wooden characters. If played straight today as a period piece, it would not hold many viewers except the Victor Herbert diehards. If satirized, it probably would have little widespread appeal on television.

This was the problem faced by producer Fred Coe, now happily returned to television. He resolved the problem by retaining the musical's basic idea and building new characters and situations on it.

If you enjoyed "The Red Mill," you are easily entertained. If you did not, ask yourself just how you would have presented it.

## MONACO HEIR IS BAPTIZED

MONTE CARLO, Monaco (U)—This tiny Riviera principality, which never passes up an opportunity to celebrate, threw a party again yesterday for the baptism of tiny Prince Albert Alexandre Louis Pierre.

The 37-day-old heir to the throne wore the same white lace dress in which his father Prince Rainier was baptized in 1922. The cathedral was packed for the ceremony.

Monegasques hoisted up the flags of France and Monaco as well as the American flag in honor of the tiny prince's mother, the former Grace Kelly of the movies.

A palace guard released 2,000 pigeons, then the 5,000 persons left the palace square for a bullfight, nautical events, champagne and fireworks.

Prince Rainier freed the lone prisoner in the Monaco jail and canceled all fines since March 14, the day of his son's birth.

### MARKET MOVES UP

NEW YORK (U)—The stock market inched forward into new high ground for 1958 early today. Trading was fairly active.

Gains of most key stocks were fractional. A number were unchanged and there were a few minus signs.

Oils, aircrafts, steels and some leading rails moved ahead but there was no outstanding group activity. The market was a bit higher at the opening as a succession of good-sized blocks was traded. Some issues improved their gains in later dealings.

## Clamp Censor On License Suspensions

HARRISBURG (U)—State Bureau of Highway Safety employees were under new regulations today requiring their dismissal if they release news of license suspension cases.

The regulations went into effect April 9, the day after it was disclosed publicly that Secretary of Labor and Industry William L. Batt Jr. had his driver's license suspended for 30 days as a result of a minor traffic accident last Sept. 18.

The regulations forbid bureau employees from talking to visitors except in the bureau's reception area. Persons with security clearance may not discuss a case with anyone of lesser rank than a division chief or section supervisor.

PHILADELPHIA (U)—The state's top Democrats are listed as guests at a \$25-a-plate Jefferson-Jackson Dinner scheduled in Convention Hall tomorrow night. Among those listed on the program announced over the weekend are Gov. Leader, Sen. Clark, Mayor David Lawrence of Pittsburgh and Mayor Richardson Dilworth of Philadelphia.

## SAY SUMATRAN REBELS MAKING FIRST STAND

SINGAPORE (U)—The Sumatran rebels are reported to be making their first determined military stand in the two-month-old Indonesian civil war.

One of their leaders, meanwhile, came out in the open in recaptured Padang, defying threats of reprisal by President Sukarno's forces.

Mohamed Natsir, leader of the Moslem Masjumi party, appeared yesterday and spoke at a mass prayer meeting on the outskirts of Padang, the Central Sumatran port city captured by 6,000 Sukarno troops Thursday. The rebel radio reported the occupying forces left him alone.

### Push Into Mountains

The bulk of Sukarno's invasion force was pushing up a tortuous mountain road toward the rebel capital of Bukittinggi. Although the outnumbered rebels melted away during last week's assault on Padang, a high military source in Jakarta reported the Sukarno troops ran into heavy opposition and had advanced only 18 miles from Padang in three days.

According to the invasion timetable, Bukittinggi should have fallen yesterday, but the central government troops still had 40 mountainous miles to go then. Help could come from a government column pushing north.

### Rebels Claim Victory

The rebel radio claimed the push on Bukittinggi had been stopped. It claimed rebel troops launched a counteroffensive and had reentered Padang last night, shooting up central government troop positions. The broadcast did not make clear whether the rebels remained in Padang.

The sudden show of rebel force and Natsir's appearance indicated that the rebels, despite their imminent military defeat, planned to continue a campaign for their original demands.

## Plan Study Of Blue Cross Hospitalization Insurance

BY LEONARD A. UNGER  
HARRISBURG (AP)—A research arm of the Pennsylvania Medical Society unveiled a plan today for a \$150,000 study of hospital operations with an eye on correcting abuses in Blue Cross Hospitalization Insurance.

Dr. James Z. Appel, chairman of the society's board of trustees, said recommendations would be made within a year that would go "a long way" toward answering criticism recently voiced by Insurance Commissioner Francis R. Smith.

"There may be abuses of Blue Cross by doctors but they are comparatively few," he told the Associated Press. "We concede that where there's smoke there's fire and that is the purpose of this study."

Doctors Are Pressured  
Smith, in recently approving sharply increased Blue Cross rates for most of Pennsylvania, charged that doctors were allowing unnecessary hospital admissions and permitting patients to stay on longer than they should.

Smith said doctors have collaborated with Blue Cross patients in these abuses and called on medical societies—state and local—to discipline offending members.

Dr. Appel replied that patients have put pressure on doctors to admit them to hospitals for clinical examinations so that Blue Cross would pay the bill rather than the patient if such tests were conducted as out-patients.

"The extent to which the doctor resists that pressure I do not know," he said. "This is no alibi but if a doctor consistently resists such pressure the patient eventually goes to a doctor who doesn't."

Patients Want To Stay  
Dr. Harold B. Gardner, medical society secretary, sat in on the interview and took the position that doctors often have the problem of a patient who refuses to go home even when ready to leave.

"They have Blue Cross and they want to use it up," said Dr. Gardner. "They don't want to convalesce at home."

Both he and Dr. Appel said there was no legal way to compel such a patient to leave except by what they termed moral persuasion.

Dr. Appel said a private investigating agency would conduct the hospitalization survey to assure that no particular viewpoint would reflect in the recommendations.

\$50,000 Is Pledged  
About \$50,000 in verbal pledges already has been received to finance

the survey, the Lancaster physician said. Invitations to sit on an advisory board have been issued to Blue Cross, Blue Shield, hospital associations and such unions as the United Mine Workers, International Ladies Garment Workers, United Steelworkers and the Amalgamated Workers.

The advisory board was conceived last December when the Insurance Department was holding hearings on Blue Cross rates and criticism first arose on the role of physicians in hospitalization abuses.

Dr. Appel described the objective of the study project as a fact-finding mission "for the purpose of constructively improving hospital utilization for the benefit of the public."

A tentative outline set up to participating groups set up the general scope of the study as:

1. Are there any hospital in-patients who could receive their medical care on an out-patient basis?
2. Could the length of stay of some hospital in-patients be reduced without interfering with the effectiveness of diagnosis and treatment?
3. Could more effective use be made of diagnostic and treatment facilities before, during, and after the stay of some in-patients?

## WOMAN KILLED IN COLLISION

NEW STANTON, Pa. (AP)—An auto-truck collision on the Pennsylvania Turnpike near the New Stanton Interchange last night killed a Washington D. C. woman and injured three members of her family.

Fatally injured was Mrs. Margaret Smith, about 50, of 4612 Meade St. Her son-in-law, James C. Stannmore, 27, of 10723 Orville Ave., Cleveland, Ohio, his wife, Martha, and their 19-month-old son, James Jr., were injured.

Stannmore was treated at a hospital here. His wife and their son were admitted with minor injuries.

Ernest J. Weyant, 32, of Garrett R. 1, Pa., the driver of the trailer-truck, was not hurt. The trailer-truck was not struck by the auto but crossed the median strip and collided with the vehicle driven by Weyant.

CLEVELAND (AP)—John J. Coghlan, 71, a leader in the exploration and development of Canadian gold and copper mines, died Saturday, Coghlan, who was president of Coghlan Enterprises with offices in Toronto, was born near Ottawa.

## STATE JUSTICE CHIDSEY DIES; RITES TUESDAY

Judge W. C. Sheely today told The Gettysburg Times that he will stand firm on his election campaign promise that he will serve out his term on the local bench, hence will not accept consideration as a successor to Justice Chidsey. Judge Sheely's name had been mentioned for the post and The Times received the above reply as to his availability.

EASTON, Pa. (AP)—Funeral services will be held here tomorrow for T. McKen Chidsey, a justice of the Pennsylvania Supreme Court for eight years until his death Saturday.

Justice Chidsey, 74, died in University Hospital, Philadelphia, where he had been rushed for emergency surgery after suffering a rupture of main artery from the heart earlier in the day.

Gov. Leader said Pennsylvania "has lost an outstanding citizen and the Supreme Court an able jurist. . . Those of us who knew him well respected him and deeply mourn his passing."

McBride May Get Post  
Many state dignitaries were expected to be on hand for the final rites, to be held at 11 a.m. in the Trinity Episcopal Church. Interment will be private.

It was not immediately known who would be appointed to replace Justice Chidsey for an interim term. Gov. Leader declined comment on published reports that Atty. Gen. Thomas D. McBride would be named.

Should McBride get the appointment, Democrats would outnumber Republicans, 4-3, on the state's highest court for the first time in a century.

Both the Republican and Democratic state committees later will name candidates for the November election for a full 21-year term to succeed Justice Chidsey.

Ill Many Years  
With Justice Chidsey at the time of his death, and on the emergency trip from his home here to the hospital, was his wife, the former Ellen Lea of Philadelphia.

The jurist had been ill for many years with arteriosclerosis (hardening of the arteries) and in 1955 suffered a heart attack while hearing a case in Pittsburgh. His illness necessitated many absences from the bench in the last three years.

Justice Chidsey was attorney general in former Gov. James H. Duff's cabinet in 1950, when Duff

appointed him to the state's highest court. In 1951, running as a Republican, he was elected to a full 21-year term on the court.

Before becoming attorney general, Justice Chidsey had been Northampton County solicitor, district attorney and president of the county bar association.

## STRONG WINDS, HALT SMACK U.S.

By THE ASSOCIATED PRESS  
Showery weather in widely scattered sections of the country was the outlook today, with a continuation of fairly mild temperatures in most areas.

Heaviest precipitation during the night was in a belt from the lower Great Lakes southwestward across the Ohio Valley and Tennessee and into Mississippi and northern Alabama. Amounts of more than half an inch in a six-hour period were reported throughout the wet area.

Strong winds lashed some sections, including Jackson, Miss., which reported some trees uprooted. Hail fell in some areas.

The showers and thunderstorms were expected to continue during the day in broad areas from the central southern Plains eastward into Atlantic Coast states.

Showers sprinkled sections of New England but it was fair and warm southward into most other parts of the Atlantic Coast states.

5 DIE ON HIGHWAYS  
By THE ASSOCIATED PRESS  
At least nine persons died accidentally in Pennsylvania over the weekend, five them on the highways.

Fires took two lives and a man was killed in the crash of a single-engine plane Saturday night near Bellefonte.

The dead man was identified by state police as Fred Whitehill, about 40, of nearby Pleasant Gap. Injured in the crash was Chalmers Sanderson, 47, of Bellefonte, who made a futile effort to pull Whitehill from the burning plane.

Both men were employed by the Titan Metal Manufacturing Co., of Bellefonte. The plane was owned and operated by Whitehill.

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

That grandpa and grandma were only half as likely to live to celebrate their golden wedding anniversary as a young couple marrying today. The chances in 1900 that a bridegroom of 25 and a bride of 21 would survive 50 more years was only 123 per 1,000 marriages. Now it's 296 per 1,000.
